

In the year that I have had XM radio, I have come to realize that XM radio is far superior to local AM and FM musically. It has got to the point that I rarely listen to any local radio stations. As such, I have come to depend on XM for many things other than music (news, talk, and weather.) When XM begins instant Traffic and Weather in the Twin Cities later this year I will rely on it like I have everything else on XM the past year. Let XM do their thing, let AM/FM do their thing and everyone will be happy.
